IMR Test Labs has completed thousands of failure investigations at our network of labs around the world. We are experts at finding the root cause of your failure on metals, polymers, composites, thermal spray coatings and more!

- Are parts/components not performing as expected?
- Are parts/components wearing out more quickly than normal?
- Are similar parts performing differently and you need a comparison analysis?
- Are your customers reporting field failures?
- Are you getting unexpected staining or corrosion?
- Do you have unexplained debris causing failures of equipment?
- Do you have a litigation case pending and need examinations or expert witness testimony?

Our experts are versed in all types of failure, including corrosion induced, fatigue, overloading and more. Contact us today to learn more!
